								Total Current Charges	€ 1,382.19

*Usage period is aligned with the Microsoft and Adobe subscription period and provides better billing clarity. The shift to this vendor based billing model does not increase your subscription cost and eliminates the partial month cost for most new subscription orders.

Subscription Policy

Monthly subscriptions automatically renew on the first day of every calendar month unless notification of cancellation is received before the first of the month.

Annual subscriptions begin on the first day of the calendar month following the order date and automatically renew after one year unless notification of cancellation is received before the first day of the renewal month.

Cancellation of a subscription causes service to terminate on the selected cancellation date. Some vendors do allow for cancelled services to terminate at the end of the current subscription period.
