Order Notes

Add Note

Missing Required Provisioning Details

Please fill in the following provisioning details in order to continue with modifying this subscription.

Pax8 Reseller Relationship Establishment

(REQUIRED) Accept the Reseller Relationship Link to transact and purchase licenses for your customer's existing Microsoft tenant.

The Reseller Relationship allows for license provisioning and tenant validation through Pax8.

Microsoft Customer Tenant ID *

f4936fd1-526a-4c61-b361-c40b150e5822

How to find the Microsoft Tenant ID

Pax8 Granular Delegated Admin Relationship (GDAP) *

For the most effective support experience, Pax8 would like to establish a GDAP relationship with your customer. Without GDAP, support for Microsoft services may be restricted.

Pax8's GDAP includes the following permissions: Global Reader, Directory Readers, Directory Writers, Service Support Admin, and a select group for Privileged Authentication Admin.

Input your Customer Tenant ID above prior to clicking this link: Granular Delegated Admin Privilege Link

Find out more about GDAP role types here. Due to the establishment of GDAP and limitations with the Microsoft Graph API, we will no longer be able to create users and assign licenses via API.

Microsoft Customer Agreement Signatory Acknowledgement

By submitting the customer signatory information below, I represent and warrant that the customer has received and acknowledged the Microsoft Customer Agreement and that I have the authority to submit my customer's signatory information for the Microsoft Customer Agreement.

To review and share the MCA with your customers, visit: https://www.microsoft.com/licensing/docs/customeragreement

First Name (Customer Signatory Authority) *

Kevin

Last Name (Customer Signatory Authority) *

Kilpatrick

Email Address (Customer Signatory Authority) *

kevin@kilpatrickit.com

Location Microsoft Partner Network ID (Location MPN ID) *

1511839

You can locate your Location MPN ID by clicking here: https://partner.microsoft.com/dashboard/v2/account-settings/organization/identity This PLA ID (formerly MPN ID) must be associated with a reseller tenant that matches the CSP region for the customer.

PLA ID (1511839) is not valid. MS Error Code: 900400. Message: The PLA ID (formerly MPN ID) is not linked to any active reseller tenant.

Multi-Geo Capabilities in Office 365

Please note, if you are purchasing Multi-Geo Capabilities in Office 365, you must purchase a number of Multi-Geo licenses equal to, or greater than, 5 percent of your customer's total eligible Microsoft 365 subscription seats.

Parent & Add-On License Changes and Attestation

I acknowledge, by purchasing an add-on license through Pax8 for a customer tenant that does not have an active parent/base with Pax8, that I have an active parent/base license existing elsewhere, and understand I am responsible for the financial obligation and commitment on the add-on license.

Pax8 has updated our terms to allow for add-on licenses to be purchased without a Pax8 parent/base license in the customer tenant, per Microsoft NCE policy and guidelines. Please note, for an add-on type license to work and function, there must be an existing and active base license in the customer tenant, such as through Microsoft direct, or another provider.

Important: You are responsible for the term and commitment on the add-on license through Pax8 if the parent/base license exists elsewhere. If the parent/base license exists elsewhere, Pax8 will not provide support for the base license.

Validated with Errors.
